

Instructions:

1. Print these templates onto heavy stock, around 100gsm and up;
2. Cut along the solid grey lines, separating each template;
3. Fold the template down the perforated line;
4. Glue the top of a cocktail stick to the backside of template, aligning the stick to the stem of one of the the flowers;
5. Apply glue onto the other side of the cocktail stick, and fold the other flower over, so that the flower is now double-sided;
6. Cut away the white paper alongside the outline of the flower.
